

From Darkness to Enlightenment

Acharya Satyanarayana

Cell Phone No. 9314877066

Acharya Satyanarayana is dedicated to the mankind for upliftment of their life. He believes that everyone has a great desire to come out from Darkness to Enlightenment but the right path is not known to everyone. Therefore, he shows the right path of DHARMA on scientific basis. For example, the chemical formula of water is H_2O . It will remain same in India as well as in USA, Germany, England, Australia or any part of the universe. This formula is perpetual since time immemorial and will remain same after thousands of years. It will never change. Similarly, the meaning of true DHARMA is universal, beyond the time limit and is applicable on all human being irrespective of their caste, color, creed and language.

It is Law of Nature that Water flows from top to bottom and Fire blows from surface to sky. In other words, water will go downwards and fire will go upwards. The reason is that water is born from sea and fire is born from Sun. They will always go towards their original source. Since, the man is son of God, therefore, all human soul (ATMA) are running towards the God (PARMATMA). The soul of every human being runs to reach the ultimate Truth- GOD.

Unfortunately, people understand that DHARMA are different, therefore, they call it as Hindu Dharma, Muslim Dharma, Christian, Sikh, Jain, Buddha and many other Dharma. It should be realized that these are different sects or PANTH but not Dharma. The Law of Nature is the TRUE & PURE DHARMA because it never changes irrespective of place, time or people and is applicable on all.

Acharya Satyanarayana says that no one has seen the God and, therefore, it is not sure that God is True but it is sure that Truth is God. He, therefore, believes in True and Natural Life.

Acharya Satyanarayana is not a priest of any temple. He believes that service to the human being is the true service of God. The people suffering from many diseases are coming to the Hospital and to serve them honestly is the true worship of God. He, therefore, gives his time to Meera Hospital for ensuring that patients coming to the Hospital are treated in the best and cheapest manner so that poor people can get the best treatment.

For the human welfare, Acharya Satyanarayana has founded **“Meera Charitable Trust.”** Among many objectives, the prime objective of the Trust is to ***Prevent Cancer.*** There are many cancer hospitals in India giving treatment of cancer but there is no institute which solely concentrates its activities for prevention of Cancer. Meera Charitable Trust is arranging many Free Camps for Dental Check up for finding Oral Cancer. Many camps for poor people to check the Prostate Cancer in male, and Cervical Cancer and Breast Cancer in female are being arranged. It is essential to do the screening work because at the initial stage, it is possible to cure Cancer patients. If they reach to the Cancer Hospital on reaching the 2nd or 3rd stage of Cancer, then the treatment is very difficult and costly too. The positive results are less than 10 per cent.

The medical background of Acharya Satyanarayana for past 41 years, as his wife is an allopathic doctor – Dr. Meera Patodiya and his sons are also Dr. Amit Patodiya, eminent Dentist of Jaipur, Rajasthan and younger son Dr. Bharat Patodiya M.D. General Medicine and now doing D.N.B. in Oncology from Hinduja Hospital, Mumbai, Maharashtra, India. His both daughter-in-laws are Dr. Anshu Patodiya, M.S. (Gynae) and Dr. Shalini Patodiya, D.D.V.L. and presently doing D.N.B. from Gandhi Nagar, Ahmedabad, India.

All above has encouraged Acharya ji to do service of the mankind through giving best medical services as well as to teach them the scientific aspect of Dharma so that they can come out of the darkness and see the enlightenment.

Aacharya Satyanarayana has also started a new mission for **saving Food**. **ANNA DEVTA HAI** means Food is God and we should not disrespect the God by throwing food in dust bin from our plates. If a person goes to a Hotel or Restaurant for eating food, alone or with his family, then he is very careful in placing the order because he has to pay for the items served to him. After eating food, if he finds that some food is left in the plate, he asks the Waiter to pack it for carrying the same to his home. He does not want to waste food in the Restaurant. But the same person when goes in a marriage party, there he fills his plate fully with various items and after eating them, he throws away a large quantity of food in the dust bin. The thinking in mind is that since I have not to pay money for this food, it is not my personal loss or direct monetary loss to me. On the other hand, if we scientifically examine that will come to know that in fact, it is his own loss because the Quota of Food given by the God is lost by him and in his old age he will have to suffer from starvation. Aacharya Satyanarayana has been teaching this truth to more than 5 lacs people in India in the current year. Aacharya Satyanarayana has also distributed more than 2 lacs posters throughout the country and abroad to spread this message of saving food.

Aacharya Satyanarayana is meditating by VIPASSANA meditation technique since 1990. So far, in these 25 years, he has attended 8 Ten Days Course, 1 Sattipatthan, 1 Special 10 days Course, one 20 Days Long Course and given Dharma-Sewa in one 10 days Course. He has got the experience of deep SAMADHI. This meditation technique has thoroughly changed his life and he now remains equanimous (in state of SAMATA) for a long time.

Anger is the main problem in the nature of human being. Acharya Satyanarayana is showing the techniques for reducing the frequency and duration of Anger in our life. Thus, Acharyaji is helping people through modern technology to win over Anger. More than one lakh people have taken benefit from the methodology explained by Acharyaji and their life is more peaceful and happy now. He does not give PRAVACHAN for controlling Anger because it will not help that much as the modern techniques to reduce Anger are more useful.

Moral values in the childhood should be imbibed in the young generation. Therefore, Acharyaji is visiting schools to sow the seeds by giving moral education to the school going children. So far more than one lac students have taken benefit from the moral education given to them by Acharyaji.
